{ **So flexible you can persist a bean salad** }

WebGain TopLink™

Persisting Java™ doesn't have to be painful. WebGain TopLink™ delivers the industry leading Java and database integration product so your development team can focus on creating applications, not infrastructure.

With TopLink, you can:

Persist ANY Java Object
- Regular Java Objects
- CMP Entity Beans
- BMP Entity Beans

In ANY Java Architecture
- Session Beans
- JSPs/Servlets
- Message Driven Beans
- 2-tier

Leverage Unsurpassed Caching
- Improve database read performance over JDBC up to 5000%
- Flexible cache management
- Effective memory utilization

Query in Java
- Create powerful queries without hand coding SQL
- Utilize EJBQL, even for Java Objects
- Query profiling—optimize performance

Leverage Powerful Database Features
- Stored procedures
- Outer-joins
- Parameterized SQL binding
- Sub-selects
